CERTIFICATE OF COMPLIANCE

Rollbar Inc.

665 3rd Street #150, San Francisco, CA 94107

has been found to conform to the requirements of the Standard **ISO/IEC 27001:2013**

The scope of assessment for this popular standard is as follows:

The scope of Rollbar's ISMS applies to the main Rollbar application as provided to its customers as operated out of the GCP environment. The scope includes staff and assets that support this functionality based at the head office. The scope also includes Rollbar's assets that support this function based at Google Cloud Platform (GCP). GCP is covered by virtue of the contractual agreement, their ISO 27001 compliance, and their SOC2, type 2 compliance which is in line with Rollbar's security requirements; therefore, any aspect related to the physical location (i.e. security and utilities) of GCP will not form part of the scope.

In accordance with the Statement of Applicability (Rollbar 2021) Dated: 11/01/2021.

Disclaimer: The certification documents, including the Statement of Applicability, may refer to national and international standards as source 9s) of the control set. These controls may have been reviewed, but this certification is applicable only to ISO 27001:2013 defined controls.
